

Bigger, brighter, better and back with a bang

Our WiSH club museum was officially reopened on Friday 31 January by Maureen Batsford and Dickie Guy, I believe the pictures speak for themselves, an incredible effort from all the WiSH volunteers involved in rescuing items from the flood, to building new cabinets and then bringing it back to life.

I'm told it has the wow factor now and we're very proud of the end result and hope you all enjoy seeing our complete 130+ years history on display. Please sign and comment in the visitors book and leave a kind donation if you can, the museum remains free at point of contact for all to view.

More details & information can be found by visiting www.wimbledoninsportinghistory.org

Tours are back in full swing now and there are some brand new exhibits – just for those that book – to see up on the third floor.

The day finished with a celebration of the famous Batsford Boys 50th Anniversary dinner, once again I'll leave the pictures to tell the story. The evening was a great success and the first partnership heritage anniversary event between WiSH and the Club, we plan to celebrate an anniversary each season now and are already looking forward to what we can bring you in 2025/26.
